

/* Every technology expert should be compelled to explain their products in clear, accessible terms!

Prof. Dominik Bösl

Visionary Speaker & Leading Authority on Robotics, AI, and Societal Impact

/* Technological progress must remain within everyone's reach.

< Mission >

Researchers and innovators must be compelled to articulate their work with crystal clarity! This is the only way to guarantee that businesses, policymakers, and future generations can make enlightened decisions while harnessing technology’s power responsibly.

Once Sci-Fi –
Now Strategic Reality

< Guiding Principle >

Democratizing technological progress. Under this mandate, Professor Dominik Bösl equips audiences with riveting insights into groundbreaking innovations reshaping civilization.

Ethical AI & Responsible Innovation

Discover the untapped potential and critical boundaries of artificial intelligence. Master strategies to deploy AI with unwavering ethical stewardship—preserving human autonomy while amplifying societal value.

Smart Robotics & Autonomous Futures

Tomorrow’s generations will navigate a world dominated by self-learning systems. Explore how inclusive discourse and adaptive governance can steer this transformation toward equitable, sustainable outcomes.

Strategic Foresight & Tech Policy

Decode emerging megatrends and future scenarios to architect innovation-driven success. Learn frameworks that convert technological disruption into lasting competitive advantage while safeguarding public trust.

Let’s Debug our Future

< Keynote Speaker >

Professor Dominik Bösl – Renowned thought leader dissecting AI’s ethical dilemmas, societal transformations, and technological frontiers in the age of emerging innovations.

- Keynote Engagements & Visionary Speeches
- Expert Panels & Media Dialogues
- Video Features & Podcast Spotlights

- Convey complex technical topics in an approachable way
- Engage your audience emotionally and build up suspense
- Interactive presentation formats and audience participation
- 20 minutes or 3 days – flexible formats for any time frame
- Connect to international audiences with stage-ready English
- Confident in front of microphone and camera

< Incubator and Collaborator >

As a pioneering researcher and strategic advisor in robotics/AI, Professor Dominik Bösl bridges academic rigor with industry execution – transforming cutting-edge discoveries into actionable strategies that harness technology's full potential while mitigating societal risks.

- Immersive Workshops & Venture Incubation
- Breakthrough Research & Technology Prototyping
- Board Governance & Executive Advisory

Dominik wasn’t just a speaker—he was the undisputed highlight of our event! His keynote delivered an electrifying blend of visionary insights and edge-of-the-seat suspense, leaving the entire audience buzzing with transformative ideas long after the stage lights dimmed.

The AI (R)evolution – Bridging Buzz to Sustainable Breakthroughs

buzzsprout.com/2045964/episodes/14560779

Dominik masterfully blends razor-sharp wit with deep insight, revealing AI’s transformative power and risks with captivating clarity. This tour de force entertains and enlightens, leaving a lasting impact long after the applause fades.

Rohit Pant
Chief Digital Officer – Schuler Group GmbH

Mr. Bösl captivated the audience with his real-world insights and engaging style, turning complex AI concepts into a thrilling journey. A standing ovation said it all—attendees would’ve gladly skipped their coffee break for more of his insights!

Markus Novak
Director EMEA Client Group – AllianceBernstein

Mr. Bösl’s keynote was the perfect launchpad and cornerstone of the event. A post-event survey confirmed what everyone felt—his session was voted the #1 highlight by participants.
